

# DeltaPSU Product Notice

## Force-GT Series Product Notice: Introduction of Spring Clamp Connector Models and Implementation of DC Input

Delta has expanded the Force-GT Series by adding spring clamp connector models for both single-phase and three-phase applications. Additionally, a DC input function has been implemented into the single-phase models, supporting both screw and spring clamp connector types. This new feature allows the single-phase models to operate using DC input in addition to the existing AC input functionality. This enhancement offers our customers greater flexibility in their power input options, making the product suitable for a wider range of applications.

For more details, please refer to the latest specifications on the [DeltaPSU](http://DeltaPSU) website.

**Implementation Date:** Nov-2023

### Model List:

#### Spring Clamp Connector

	Series	Spring Clamp Connector Models
	Force-GT 1 PH	DRF-12/24/48V120W1GTA DRF-12/24/48V240W1GTA DRF-24/48V480W1GTA
	Force-GT 3 PH	DRF-24V120W3GTA DRF-24V240W3GTA DRF-24V480W3GTA

#### Product Revision with DC Input Implementation for Screw Connector (1 PH)

Models	Old Revision (AC input)		New Revision (AC & DC input)	
<a href="#">DRF-12V120W1GBA</a>	00	Input Voltage Range: 90-264 Vac	01	Input Voltage Range: 90-264 Vac (127-375 Vdc)
